DIGITAL WORLD TIPS

” WAYNE DENNER

TURN ON 2 FACTOR AUTHENTICATION.

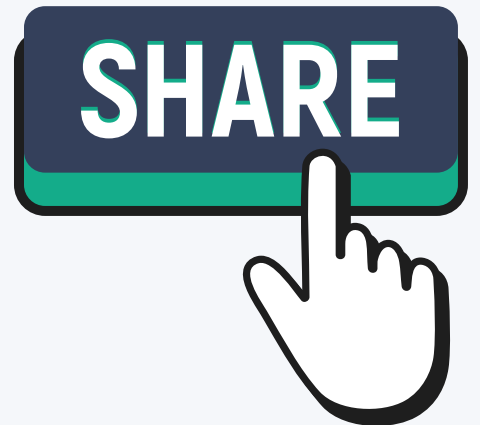

1

Two Factor Authentication, or 2FA, is an extra layer of protection used to ensure the security of online accounts - beyond just a username and password.

2

WATCH WHAT YOU SHARE & POST.

Stop & Think before you post. Not all information you find online is true. Think about what you share online and how it might impact your Online Reputation.

THINK ABOUT YOUR PRIVACY.

3

Keep personal information private. It is a good idea to regularly check privacy and location settings on apps and devices.

4

AWARENESS & COMMONSENSE IS KEY.

If something is too good to be true then it often is. Cybercrime & Cyberscams are on the rise. Always think before you click. Remember hackers don't break in - they login.
